### Inspection and palpation

Head  
Neck  
Withers  
Back  
Croup  
Genitals  
Left frontlimb  
Right frontlimb  
Left hindlimb  
Right hindlimb

0.6.3.

### Fore Hooves and hind hooves

Horn quality  
Hoof percussion  
Hoof inspection  
Size and shape

0.6.3

### Gait

#### Walking on hard surface

Straight line  
Small circle left  
Small circle right

0.6.3.

#### Trotting on hard surface

Straight line  
Small circle left  
Small circle right

0.1.3.

#### Trotting on soft surface

Small circle left  
Small circle right

0.6.3

#### Cantering on soft surface

Small circle left  
Small circle right

0.6.3

### Flexion tests (not for foals)

LF: forced flexion: not sensitive / sensitive  
RF: forced flexion: not sensitive / sensitive  
LH: forced flexion: not sensitive / sensitive  
RH: forced flexion: not sensitive / sensitive

Trotting away: not lame / lame  
Trotting away: not lame / lame  
Trotting away: not lame / lame  
Trotting away: not lame / lame

### Spavin tests

LH: forced flexion: not sensitive / sensitive  
RH: forced flexion: not sensitive / sensitive

Trotting away: not lame / lame  
Trotting away: not lame / lame

Inspection of stifle:

Normal / ...

Other findings and remarks: no / yes...

During the examination there were indications of vices: no / yes...

After the examination blood samples were / were not taken for investigation of banned substances.

Conclusion (X Yes O No):

*in Ordnung*

Clinical examination:

X / O No abnormal findings

X / O Abnormal findings (see examination protocol)

The horse receives a satisfactory / normal medical risk / increased medical risk

**Radiological examination** (not for foals / Not executed)

Navicular DP RF: f.ex. grade 2, distal border fragment  
Navicular DP LF: f.ex. No significant abnormalities, grade 1-2  
Navicular LM RF: f.ex. No significant abnormalities  
Navicular LM LF: f.ex. No significant abnormalities  
Fetlock LM RF: f.ex. ocd dorsoproximal sulcus  
Fetlock LM LF: f.ex. No significant abnormalities  
Fetlock LM RH: f.ex. No significant abnormalities  
Fetlock LM LH: f.ex. No significant abnormalities  
Tarsus LM + APLO RH: f.ex. No significant abnormalities, grade 1  
Tarsus LM + APLO LH: f.ex. No significant abnormalities, grade 1  
Tarsus APLO RH: f.ex. No significant abnormalities  
Tarsus APLO LH: f.ex. No significant abnormalities  
Stifle LM RH: f.ex. No significant abnormalities  
Stifle LM LH: f.ex. No significant abnormalities  
Tarsus DP RH: f.ex. No significant abnormalities  
Tarsus DP LH: f.ex. No significant abnormalities  
Back: f.ex. No significant abnormalities

Other radiological examinations: no / yes...

Radiological conclusion:

The horse receives a normal medical risk / to some degree increased medical risk / increased medical risk

Remark: f.ex. ocd fragment RF fetlock can be removed
