Health certificate based on a veterinary examination 20220216 of Baloufino DE418180024904 Chip 96800000179624, Bay stallion, 18 years old.

The general condition is good. The stallion had his heart, lungs, body examined without any abnormalities. He has 2 normal testicles both to size and consistence. He walks, trots and gallops in liberty without any signs of lameness. He showed good temperament at the exam and I find him being fit for breeding/recreational riding
