Other examinations

- Endoscopy larynx/pharynx: no indication during clinical examination
- Radiographs: not included in this examination
- Ultrasound: no indication during clinical examination
- Blood: no export tests are requested

A sample for doping tests is stored for two years after the examination, available for both parties.

Conclusion

Francien is a pleasant grey pony. She's in a good condition and alert. She is easy to handle during the examination. No clinical abnormalities are detected.

My professional conclusion is that Francien is a clinical sound pony.
