**Re Colt UELN826002202100522 'Give No Ground' Microchip Number 981000012603062
D.O.B 22.04.2021**

The above colt was examined today, including examination of heart, lungs, teeth, eyes, skin umbilicus, testes, and limbs.

I detected no abnormalities other than a mild presentation of bacterial folliculitis (rain scald) along the skin of the back.

J. David Walmsley BA VetMB MRCVS
