Fetlock joint	RH	<input checked="" type="checkbox"/>	<input type="checkbox"/>		_____

Radiological exam of other parts / extra findings: irregular surface medial sesamoid bone LH
related to clinical and ultrasonographical findings

Conclusion: Radiographical finding sesamoid bone LH needs to be correlated to clinical and ultrasonographical findings

Thus examined and reported by me: Linda de Weert, Equine Veterinarian in the Netherlands

This report can only relate to the appearance on the date of examination on 23/11/2022 (date)

Signature of examining Equine veterinarian, drs. Linda de Weert, Paardenkliniek de Postbaan te Rucphen, NL
