

Protocol for the purchase examination of a horse

Buyer: _____ Tel.no: _____

Address: _____

E-mail: _____

Name of the horse: Cool Thunder 2

Breed: Zangersheide Sex: Gelding Born: 2015 Color: darkbrown

Pedigree: Con Spirito R - Marco Minas

Chip no.: 968 000 010 380 140

Passport no.: 056 015 2 557 855 15

Clinical Examination

Grooming condition: w.c.r

Skin&hair: mild skin irritation left outside short pastern: otherwise
w.c.r

General condition: w.c.r

Noticeable deviations: w.c.r

Exterior, reproductive organs (palpation&inspection): Perioest reaction lateral

MT III right hind otherwise w.c.r

Horse: Cool Thunder 2

Examination of walk and trot:

Walk/trot on hard ground: w.c.r

Flexing pain: no yes

Trotting after 1 min. of flexing

Left front: w.c.r Left hind: w.c.r

Right front: w.c.r Right hind: w.c.r

Longing, specify surface hard and soft ground - w.c.r

Rotation pain small circle

in a circle left: w.c.r in a circle right: w.c.r

Hoofs, specify shoeing Shoed all four - w.c.r

Provocation test: w.c.r

Heart and respiratory system:

In Rest

Lung auscultation: w.c.r

Lung percussion: w.c.r

After Workload

Lung auscultation: w.c.r

Heart: w.c.r Breathing noise: w.c.r

Heart and breathing rates:

	Before workload	After workload	After 10 minutes
Pulse Rate	36	76	36
Breathing Rate	14	34	14

Horse: Cool Thunder Z

Coughing provocation: w.c.r

Eyes: Signs of disorder of the conjunctiva, cornea, iris, lenses, vitreous humour, background of the eye: no yes

w.c.r

Mandibular lymph nodes & Jugular venes: w.c.r

Mouth/teeth (inspection): w.c.r

Other examinations

Ultrasound

Endoscopy

Riding test

Gynecological examination

Blood-test

Others: _____

wcr = without clinical remarks

Horse: Cool Thunder 2

Standards

AP 0° (Oxspring) left front : w.n.v
right front: w.n.v

Lat.-medial left front : w.n.v
right front: w.n.v
left hind : Small osteophyte dorsal P1 otherwise w.n.v
right hind : w.n.v

Hock 110° left : —
right : —

135° left : w.n.v
right : w.n.v

30°-45° left : w.n.v
right : w.n.v

0° left : w.n.v
right : Perit reaction prox lateral splint bone otherwise w.n.v

Stifle 100° left : w.n.v
right : w.n.v

Stifle AP 0° left : w.n.v
right : w.n.v

Back _____ projections : _____

Neck _____ projections : _____

w.n.v = within normal variations

Horse: Cool Thunder 2

Other x-rays: _____

Recommendation/Statement: _____

The examination serves as a statement of the health condition of the horse at the time of the examination. The examination does not serve as a declaration of defects in the legal sense. Stereotypes like weaving or crib biting, housing dependent chronic bronchitis, allergies and particular diseases of the upper airway tract, that are only assessable after intensive exercise cannot be assessed. The examination does not include assessment of these disorders. The examination will also not give predictions about the conformation of the horse and how this will influence the breeding or sport career of the horse. The assessment of the obtained findings is done with the greatest possible care of the veterinarian and reflects his or her opinion. A prediction about the future development of the health status, performance and application cannot be determined, because it is a living animal that develops its constitution and condition constantly. A decision about the purchase or sale can only be taken by the customer.
