

# WESTGRENS

sporthästklinik

## Radiographic Exam

Horse: Arysoqalyx Fring

Chip: 752098100715722

Images taken at: Westgren Equine

Date: 15/2 - 22

Navicular bone	Anterior-posterior (oxspring), AP Lateromedial, LM, <del>Tangential (skyline) view</del>	① Slightly uneven distal border	① Slightly uneven distal border
Fetlock/sesamoids frontlegs	Lateromedial, LM <del>Lateromedial flexed view</del> <del>Anterior-posterior, AP,</del> <del>Obliques, APLO and</del> <del>APMO</del>	0	0
Fetlock hindlegs	Lateromedial, LM <del>Lateromedial</del> <del>Anterior-posterior AP,</del> <del>Obliques, APLO and</del> <del>APMO,</del>	0	0
Tarsus	Obliques APLO and APMO, <del>Lateromedial, LM,</del> <del>Anterior-posterior, AP</del>	0	0
Stifle	Lateromedial, LM, Posterior-anterior, PA, <del>Plantarolateral-</del> <del>craniomedial oblique</del>	0	0
Neck	C1-C7		
Back	Lateromedial		

Other comments: Mature splintbone medial left front

Farhult, date: 15/2 - 22

DVM Rasmus Westgren

- 0 – Within normal limits
- 1 – Lesser finding
- 2 – Finding that can be accepted on a clinical sound horse
- 3 – Finding with an increased risk
- 4 – Finding that can't be accepted
