

I, Dr. Benfenati Martina, hereby declare the following:

The mare UNDINE VIII (2004, Chambertin x Parco XX),

, had her last foal in 2019 by the stallion Clarimo.

In the 2019 season, the owner decided not to inseminate her.

During the 2020 season the mare has been gynecologically checked: last uterine swab, made on June 9th 2020, was negative (see attachment) and no uterine or ovarian abnormalities were detected by ultrasounds evaluation.

The mare has not been inseminated as she has been used as adoptive mum for an orphan foal.

Sincerely

Martina Benfenati
